

The purpose of this dataset is to display a continuing dispatched Call for Service (CFS) log for the previous 72 hours. Only CFS that have been dispatched for at least one hour will display and the log will be refreshed once every hour. Some CFS have been suppressed from this log due to the sensitivity of the type. Officially, any CFS involving sexual, domestic related or sensitive juvenile incidents have been suppressed.

All data contained on this site has been gathered through legitimate means and with the knowledge and approval of the Rockford Police Department. Data has been extracted, processed and presented through appropriate channels.

**Data and Information**

All CFS data is obtained from the Police Computer Aided Dispatch (CAD) system as reported. Information is preliminary and subject to change as police reports are submitted. Media outlets are advised to confirm any information not already verified through department issued press releases. Data is illustrative, not an official crime report and should not be used for comparative reporting. The Rockford Police Department is not responsible for any error or omission, misuse, or results obtained from the use of this information. Although no personal information is disseminated through the 72-Hour Dispatch Call Log, remember that all subjects are presumed innocent until proven guilty in a court of law.
